

REL
REL R-Series Sub-Bass Systems The R-Series is the first of Sumiko's powered bass systems to use digital amplifiers. Advanced in digital amplifier technology and lightweight, high-performance drivers combine to deliver impressive speed and control. Sumiko's REL R-Series subwoofers feature a control box positioned for easy adjustment of performance parameters including volume and crossover settings. Connection options include high level with a supplied cable or low level with RCA inputs. **COOL BECAUSE** The front-mounted control box simplifies the setup of gain, crossover and phase. **THE NITTY-GRITTY** Has a closed box loading design. ■ Features 25 to 100-Hz roll-off. ■ Enclosure is removable for custom installations. **\$1,200 and up | www.sumikoaudio.net**

LEVITON MANUFACTURING
The Vizia Collection by Leviton Leviton's Vizia collection of lighting and home controls offers a new form factor that's compatible with Leviton's trademark Decora design. The 30 devices in the Vizia Collection operate as standard dimmers and switches. They can also operate scenes and zones via remote control over the Z-Wave wireless communication standard. The all-digital design is coupled with a simple user interface. **COOL BECAUSE** It's retrofittable and uses reliable wireless technology. **THE NITTY-GRITTY** Contributes to energy savings. ■ Compatible with hundreds of Z-Wave-enabled household devices. ■ Features soft fade-on/fade-off, selectable fade rates and minimum brightness levels. **Devices start at \$26 | www.leviton.com**

BASS INDUSTRIES
Electro-animated Movie Poster Bass Industries' Electro-animated technology brings a new level of customization to the decorative side of home theater. The AC-powered Electro-animated feature adds action and illumination to any movie poster while using a minimum amount of power. The self-illuminated and flashing animation can be formatted according to the wishes of the homeowner. No rear illumination or light box is required. **COOL BECAUSE** It adds lighting and animation to a standard movie poster. **THE NITTY-GRITTY** Thin, flexible animation sheet measures 1/8 inch. ■ Lightweight poster plugs into the wall. ■ Power consumption is typically 5 watts. **\$1,575 | www.bassind.com**

SYNTAX-BRILLIAN
Olevia 747i The 47-inch Olevia 747i LCD HDTV promises high contrast, fast response and a 178-degree viewing angle. The 747i bundles the Silicon Optix Realta HQV video processor and a full range of brightness, contrast, color, tint and sharpness controls for recreating image quality as it was meant to be viewed. Big Picture Technology is said to display 37 percent more of an analog signal and 11 percent more of a digital signal without distortion from image expansion. **COOL BECAUSE** This best-in-class performer for home theater doubles as a presentation display. **THE NITTY-GRITTY** Provides preset video and lighting modes for various sources. ■ Firmware is upgradeable via USB port. ■ Comes with an on-site warranty. **\$5,000 | www.olevia.com**
